A-INTRODUCTION

1. Brief About Bank:

The Jammu and Kashmir Bank Limited (J&K Bank / Bank) having its Corporate Headquarters at M.A Road Srinagar, J&K -19001 has its presence throughout the country with 1000+ Branches and more than 1500 ATMs/CRMs. The Bank uses Information Technology in all spheres of its functioning by connecting all its branches and offices through its WAN. J&K Bank functions as a universal Bank in Jammu & Kashmir and as a specialized Bank in the rest of the country. Bank functions as a leading bank in the Union Territories of Jammu & Kashmir and Ladakh and is designated by Reserve Bank of India as its exclusive agent for carrying out banking business for the Government of Jammu & Kashmir and Ladakh. J&K bank caters to banking requirements of various customer segments which includes Business enterprises, employees of government, semi-government and autonomous bodies, farmers, artisans, public sector organizations and corporate clients. The bank also offers a wide range of retail credit products, including home, personal loans, education loan, agriculture, trade credit and consumer lending, a number of unique financial products tailored to the needs of various customer segments. The Bank, incorporated in 1938, is listed on the NSE and the BSE. Further details of Bank including profile, products and services are available on Bank's website at <https://jkb.bank.in>

2. Purpose of RFP

The Jammu and Kashmir Bank intends to onboard a reputed service provider/ Technology & Services Partner for implementation of a consolidated, end-to-end Digital Collections & Recovery Platform. The engagement covers a fully integrated, cloud-hosted Digital Collections, Recovery and Legal/ OTS Platform covering all 14 functional modules defined in Scope of Work. The solution must be entirely cloud-based, hosted by the bidder as a service as per Bank's Cloud Service Policy (CSP). The complete solution and all infrastructure will be managed by the vendor under SLA governance ensuring that the complete ownership of data in cloud hosting model rests with the Bank only.

Key Objectives:

The Bank's objectives for this engagement are:

- Reduce default rates, NPA% and cost-to-collect across digital, tele and field channels.
- Enable intelligent rule-based case allocation with champion-challenger strategy testing.
- Provide unified Customer 360 view for all related parties (borrower, guarantor, co-borrower, mortgagor).
- Automate legal, SARFAESI, DRT, IBC/NCLT, Lok Adalat and OTS workflows end-to-end.
- Enable real-time financial and non-financial transactions across all party accounts – no batch delays.

- Integrate seamlessly with existing Salesforce ECEP leveraging established whitelisted IPs, API connectivity and security clearances.
- Availability of dashboards and reporting modules.
- Seamless integration with CBC for Financial and Non-Financial Transactions.
- Onsite L3 resource for the duration of the contract minimum for 6 months but can be extended for the period of contract.

3. Eligibility Criteria

J&K Bank shall scrutinize the Eligibility bid submitted by the bidder. A thorough examination of supporting documents to meet each eligibility criteria (Annexure D) shall be conducted to determine the Eligible bidders. Bidders not complying with the eligibility criteria are liable to be rejected and shall not be considered for Technical Evaluation.

The bidders meeting the Eligibility Criteria as per Annexure D will be considered for technical evaluation. Any credential/supporting detail mentioned in “Annexure D - Compliance to Eligibility Criteria” and not accompanied by relevant proof documents will not be considered for evaluation. All credential letters should be appropriately bound, labelled and segregated in the respective areas. There is no restriction on the number of credentials a bidder can provide.

4. Scope of Work

Existing Technology Architecture at J&K Bank :The Bank operates Salesforce ECEP (SaaS on Cloud) as its existing Customer Engagement Platform. The collections platform shall be capable of integrating seamlessly various source systems including CBC, NPA Tracker, payments gateways, CRM, Active Directory etc. through API Gateway of the Bank and integration to different cloud services/other applications..

The scope of work should be read along with the technical specifications to ensure complete compliance to the scope of work. The scope covers the complete delinquency spectrum – from Pre-Due Management (PDM) through SMA 0/1/2, NPA (90+ DPD), legal proceedings (SARFAESI/DRT/IBC/NCLT/Lok Adalat), OTS/settlement and asset disposal (auction/ARC sale). The scope of solution includes but not limited to the following:

MODULE 1 – CLOUD BASED HOSTING (Hosted Deployment)

The solution must be entirely cloud-based, hosted by the bidder as a service as per Bank’s Cloud Service Policy (CSP). The service provider will procure and set up dedicated server infrastructure components. The selected service provider should host the solution on cloud in High Availability mode. It shall be ensured that the ownership of data in cloud hosting model rests with the Bank only.

MODULE 2 – DATA SCIENCE & ANALYTICS

A. Predictive Risk & Treatment Models

The Platform shall provide:

- Predictive bounce/default models to estimate probability of bounce or default for regular and SMA customers based on risk profile and past behavior.
- Roll-forward risk segmentation for SMA 0/1/2 accounts to assign optimal treatment strategies.
- Best Time & Mode to Contact (BTMC) models using AI to determine optimal channel and timing per customer for maximum right-party contact rates.
- Agent-to-customer assignment models based on agent expertise, customer behavior and portfolio characteristics.
- Recovery probability scoring for NPA accounts (90+ DPD) including collateral coverage and behavioural parameters.
- Champion-challenger strategy framework for PDM and SMA segments enabling parallel strategy testing across channels.

B. AI/ML Portfolio Assessment

The solution shall support:

- Machine-learning-based analysis of recoverable accounts with suggestive next-best-action workflows.
- Dynamic AI allocation engine that routes cases to optimal channel/agent based on predicted outcomes and capacity.
- AI model for likelihood-to-default.
- IRAC auto-classification of accounts at 90-day overdue threshold NPA flag triggered in CBS (Finacle 10.2.25) in real time.
- At-risk early-warning identification for customers before DPD occurs, triggering proactive interventions.
- Customer 360 data-driven holistic profiling using CBS data, bureau inputs, payment history, collateral and related party signals.

MODULE 3 – WORKFLOW AUTOMATION

A. Drag-and-Drop Workflow Configuration

The Bidder shall provide a UI with drag-and-drop capability enabling authorized admin users to:

- Configure multi-condition workflows for collections processes without coding.
- Automatically schedule field visits based on DPD, geography, agent capacity and priority rules.
- Define settlement-eligibility logic and repossession-eligibility marking.
- Automatically allocate/de-allocate accounts to/from dialer campaigns.
- Design outcome-based communication journeys – adaptive campaigns where next step depends on customer's response.
- Trigger automated legal workflow reminders based on configured conditions and hearing dates.

B. Automated Treatment & Event Handling

The workflow engine shall support:

- Automatic communication triggers (SMS/Email/WhatsApp/IVR/OBD) based on DPD, PTP status and payment events.

- Automatic DND marking/removal and tag management based on configured conditions.
- Automated lien placement, debit initiation and un-lien for borrower and guarantor accounts, auto un-lien triggered on payment confirmation in CBS.
- Auto-task generation based on Promise-to-Pay date; broken PTP triggers re-allocation and escalation.
- Maker-checker approval flows for critical actions (settlement, legal filing, waivers) with multi-level hierarchy.
- Case retention rules and manual reallocation capability for supervisors with full audit trail.
- Action-plan-led guided processing ensuring compliance, data-capture completeness and SLA adherence.
- Intelligent rule-based dynamic allocation: by DPD bucket, product, geography, agent skill, agency and workload.

MODULE 4 – DIGITAL COMMUNICATION & OMNI-CHANNEL

A. Multi-Channel Communication

The Platform shall support:

- Multi-lingual Email: text and HTML templates, personalized with customer name, loan details, payment links auto and manual triggers.
- Multi-lingual SMS: customized templates, automated and manual, including payment links and receipt acknowledgements.
- WhatsApp Two-Way Messaging: outbound campaigns + two-way chat integration with call centre and web interfaces via bank's WhatsApp handle.
- DTMF IVR and OBD IVR: automated IVR calling campaigns for pre-due reminders, EMI alerts and settlement offers.

B. Gen AI Voice Bot

The Platform shall include a Generative AI Voice Bot that:

- Operates in vernacular and regional Indian languages minimum 14 languages including Kashmiri, Dogri, Hindi, Urdu, Marathi and other regional languages.
- Is developed and maintained entirely in-house by the Bidder no third-party voice bot.
- Handles outbound/inbound collection calls: PTP capture, payment link dispatch and basic dispute resolution.
- Includes humanoid calling capability for natural language conversations with fallback to live agent transfer.
- Is supported by a dedicated voice bot performance dashboard.

C. Omni-Channel Backbone

The SaaS platform shall:

- Have pre-existing integrations with SMS, Email, WhatsApp, IVR and voice bots with at least two providers per channel for redundancy (99%+ uptime per channel).

- Support AI-optimized personalization: message content, language, timing and channel selection based on customer profile.
- Leverage JK Bank's existing communication hub/CRM(ECEP) (Salesforce Marketing Cloud) for campaign execution.
- Provide delivery, open and response tracking analytics for all communications.
- Support configuration of predefined communication templates with DND compliance and TRAI/RBI regulatory adherence.

MODULE 5 – DIALLER, TELEPHONY & CALL CENTRE

A. In-House Dialer

The SaaS platform must include an in-house developed and maintained dialer pre-integrated with the collections & Recovery application. The tele-caller interface shall:

- Support Progressive, Preview, Predictive, Auto and Power dialing modes – configurable per campaign.
- Provide direct call-to-action (CTA) options: send payment links, raise settlement requests, initiate two-way WhatsApp, capture PTP.
- Be configurable to display details as required by the Bank for specific portfolios or user groups.
- Ensure call recordings are available on the UI with RBAC-based access control – recordings linked to case trail.

B. CTI Integration & Unified Agent Desktop

The call center module shall provide:

- Computer-Telephony Integration (CTI) for outbound calls directly from the CRM interface.
- Skill-based routing: inbound and auto-dialed calls routed to agents with appropriate language/skill for the customer.
- Single-screen unified agent desktop showing customer 360, delinquency details, past interactions, call scripts and action buttons.
- Real-time call disposition capture (Contacted, Not Contacted, PTP, RTP) with remarks and follow-up scheduling on the same screen.
- Omni-Supervisor dashboard: real-time agent status, call queue, SLA adherence, live call monitoring.

C. In-Call Actions

During calls, agents shall be able to:

- Capture Promise-to-Pay (PTP) with automatic task creation on PTP date.
- Generate and dispatch payment links (UPI/gateway) and QR codes via SMS/WhatsApp.
- Fetch customer J&K Bank account balance (integration with CBS); initiate lien and debit on borrower and guarantor accounts.
- Generate receipt PDF and send via SMS bitly link, WhatsApp and Email.
- Ensure DNC/TRAI compliance, call time restrictions and consent management for all campaigns.

MODULE 6 – FIELD AGENT (FOS) MOBILE APPLICATION

A. Mobile Application

The mobile app shall:

- Be available on Android and iOS with offline capability – auto-sync on network reconnection.
- Support both mobile and web-based interfaces for authorized users.
- Generate virtual ID cards for field agents – activatable/deactivatable with admin controls.
- Provide a personalized daily case worklist with customer profile, address, outstanding, DPD and priority.
- Integrate with Google Maps / equivalent for navigation, route optimization and geo-mapping.

B. GPS & Visit Management

The app shall capture:

- Mandatory GPS geo-tagging with timestamp on check-in and check-out – proof of visit at the address.
- Agent live location (on duty) visible to managers on a map; agent location history with searchable reports.
- Route tracking and visit-time vs. travel-time productivity metrics.
- Offline display of previous visit locations and dispositions for the current agent.

C. Case Trail & Collection

After each visit, agents shall capture:

- Customer contactability, commitment details, PTP amount and date, partial payment, follow-up required.
- Photos, signed documents and supporting evidence uploaded within the app.
- Case status and disposition via structured form – syncs to central system in real time.
- Concurrent multi-party trail uploads – multiple agents on different related parties of the same case simultaneously.

D. On-Site Payment & Cash Management

The app shall support:

- Digital payment: generate real-time payment link or UPI QR code; share via SMS/WhatsApp; reflect instantly in CBS on success.
- Cash/cheque collection: agent records details in app; electronic receipt generated (PDF/SMS) for customer.
- Wallet management: configurable cash limits at agent and agency level (pan-India aggregate).
- BC network integration for last-mile collections in rural/remote areas.
- Legal status visibility: field agents can view notice stage, possession status and court dates for assigned accounts.

- Knowledge base access: collection scripts, legal guides and bank policies from within the mobile app.

MODULE 7 – NOTICE MANAGEMENT

A. Notice Generation & Dispatch

The Platform shall:

- Auto-generate notices in configurable templates for all types: demand/recall, SARFAESI Section 13(2), 13(4) possession notices, newspaper publication and DRT notices.
- Support bulk notice generation and print-ready PDF dispatch with dual-mode delivery: Registered AD (physical) and Electronic (both mandatory for SARFAESI).
- Integrate with India Post for registered AD dispatch – dispatch confirmation and delivery status tracked in platform.
- Integrate with courier/logistics providers for physical notice tracking (delivered, in-transit, failed delivery).
- Trigger digital notices via SMS, Email and WhatsApp with delivery and response tracking.
- Support DPD-triggered notice scheduling per bank-configured policy (e.g., trigger 13(2) at NPA + 16 days).

B. eSign & Document Management

The solution shall:

- Integrate with e-Sign providers (Expression Legality or equivalent) for digital stamping, signing and delivery with tamper-proof tracking.
- Support bulk digital signing (DSC) and offline signed-copy upload.
- Capture newspaper publication notice links (for absconding borrowers) with publication date and newspaper name.
- Maintain complete notice audit trail: generated, dispatched, delivered, acknowledged – linked to case with timestamps.
- Manage 60-day response window after Section 13(2) notice; capture borrower objections; calculate bank's 15-day reply window.
- Support vernacular language in all notice templates.

MODULE 8 – LEGAL MANAGEMENT SYSTEM (LMS)

A. Matter Types & Case Management

The LMS shall support:

- All legal matter types with configurable process steps, data fields and milestone tracking: SARFAESI, DRT (loans \geq ₹20L), IBC/NCLT (\geq ₹1 Cr), Lok Adalat, ARC Sale.
- A dedicated legal workspace listing all accounts under legal process with total due, DPD, court case number and stage.
- Open search for legal cases by keywords or cause titles published by courts; mapping/saving to loan IDs.

- Empaneled lawyer database with case assignment, document sharing, follow-up reminders, acceptance confirmation and next-hearing notifications.
- Billing and rate-card automation: auto-calculate billing based on rate cards per matter type; invoice generation and payment tracking.
- Mobile application for legal case managers and advocates.

B. Workflows & Approvals

The LMS shall provide:

- Legal case initiation with hierarchy-based approval routing; NAPM approval for Scale 4+ SARFAESI objection replies.
- Maker-checker (including multi-level) approval for all process steps – configurable from UI.
- Automated reminders to case managers a configurable number of days before hearing dates.
- Colour-coded alert system (Green/Amber/Red) for overdue legal milestones.
- Dispute marking with reason coding; flag suppresses automated collection actions during dispute period.

C. Legal Process Workflows

- SARFAESI Section 13(4) Possession Workflow: step-by-step for cooperative (symbolic) and resistant (DM/CMM/police enforcement) borrower scenarios.
- DRT workflow: demand/recall notice → filing → legal panel engagement → hearing → decree → recovery execution.
- IBC/NCLT workflow: application → RP appointment → CoC → resolution plan (180-360 days).
- Lok Adalat workflow: referral → hearing → waiver/restructuring → final binding award.
- ARC sale workflow: recovery probability assessment → guarantee invocation check → price negotiation → assignment.

D. System Integrations

- e-Court integration: auto-fetch hearing dates, order copies and milestone alerts from Government e-Court system.
- LCode Technology NPA system: bi-directional sync for NPA status, legal filing status and recovery recording.
- Auto-generation of e-Repo kit: possession notice, panchnama, inventory, DM/CMM application, security deployment records.

MODULE 9 – OTS / SETTLEMENT MODULE

A. Settlement Initiation & Configuration

Successful bidder is expected to provide detailed project implementation status on weekly basis.

The bidder must strictly adhere to the project timeline schedule, as specified in the purchase contract executed between the Parties for performance of the obligations, arising out of the purchase contract and any delay in completion of the obligations by the bidder will enable Bank to resort to any or all of the following provided that the bidder is first given a 30 days" written cure period to remedy the breach/delay:

- a. Claiming Liquidated Damages
- b. Termination of the purchase agreement fully or partly and claim liquidated damages.
- c. Forfeiting of Earnest Money Deposit / Invoking EMD Bank Guarantee/Performance Guarantee.

However, Bank will have the absolute right to charge penalty and/or liquidated damages as per Tender /contract without giving any cure period, at its sole discretion besides taking any other appropriate action.

EXTENSION OF DELIVERY SCHEDULE:

If, at any time during performance of the Contract, the Bidder should encounter conditions impeding timely delivery, the Bidder shall promptly notify the Bank in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the Bidder's notice,

the Bank shall evaluate the situation and may at its discretion extend the Bidder's time for performance against suitable extension of the performance guarantee for delivery.

NON-DELIVERY:

Failure of the successful bidder to comply with the above delivery schedule, shall constitute sufficient grounds for the annulment of the award of contract and invocation of bank guarantee (delivery) besides taking appropriate action against the successful bidder including blacklisting such bidder from participating in future tenders.

3. USER ACCEPTANCE TESTING:

Successful bidder shall assist Bank in the User Acceptance Testing of the solution for the functionalities stated in this RFP document. Bank shall issue a UAT signoff on successful completion of the UAT for all channels. If the UAT fails or there is undue delay of the completion of the UAT due to reasons attributable to the successful bidder, Bank may at its own discretion cancel the purchase order and invoke the Bank guarantee for implementation.

4. OPERATIONALIZATION OF SOLUTION:

Bank shall issue Go Live Signoff on successful operationalization of the solution. If there is delay in the operationalization of the solution, Bank reserves the right to cancel the purchase order and invoke the Bank guarantee submitted for implementation.

5. REVIEW:

The solution shall remain under review for a period of 3 months from the date of issuance of Go Live Certificate as stated above. The Successful bidder shall be readily available during the review phase for troubleshooting and other support. During the review phase, Bank may request changes to the application as per its requirement and no extra costs shall accrue to the bank for the effort involved in the same. Bank shall issue final acceptance signoff at the end of the review phase.

B-EVALUATION PROCESS

The endeavor of the evaluation process is to find the best fit Solutions as per the Bank's requirement at the best possible price. The evaluation shall be done by the Bank's internal committees formed for this purpose. Through this RFP, Bank aims to select bidder(s) /Service provider(s) who would undertake **End-to-End Digital Collections & Recovery Platform**. The bidder shall be entrusted with end to end responsibility for the execution of the project under the scope of this RFP. The bidder is expected to commit for the delivery of services with performance levels set out in this RFP.

Responses from Bidders will be evaluated in two stages, sequentially, as below:

Stage A. Evaluation of Eligibility

Stage B: Technical Evaluation

Stage C. Commercial Evaluation

The three stage evaluation shall be done sequentially on knock-out basis. This implies that those Bidders qualifying in Stage A will only be considered for Stage B and those bidders qualifying Stage B will be considered for Stage C. Please note that the criteria mentioned in this section are only indicative and Bank, at its discretion, may alter these criteria without assigning any reasons. Bank also reserves the right to reject any / all proposal(s) without providing any specific reasons. All deliberations and evaluations performed by Bank will be strictly confidential and will be maintained as property of Bank exclusively and will not be available for discussion to any Bidder of this RFP.

Stage A-Evaluation of Eligibility

The Bidders of this RFP will present their responses as detailed in this document. The Response includes details / evidence in respect of the Bidder for meeting the eligibility criteria, leading the Bank to evaluate the Bidder on eligibility criteria. The Bidder will meet the eligibility criteria mentioned in Annexure D in this document individually. Bank will evaluate the Bidders on each criterion severally and satisfy itself beyond doubt on the Bidders ability / position to meet the criteria. Those Bidders who qualify on all the criteria will only be considered as "Qualified under Stage A" of evaluation and will be considered for evaluation under Stage B. Those Bidders who do not qualify at this Stage A will not be considered for any further processing. The EMD money in respect of such Bidders will be returned on completion of the Stage A evaluation. Bank, therefore, requests that only those Bidders who are sure of meeting all the eligibility criteria only need to respond to this RFP process.

Stage B-Evaluation of Technical Bid

All technical bids of bidders who have Qualified Stage A will be evaluated in this stage and a technical score will be arrived at. The bidder should meet the technical requirements as mentioned in the Annexure E1. The Bank will scrutinize the offers to determine their completeness (including signatures from the relevant personnel), errors, omissions in the technical & commercial offers of respective bidders. The Bank plans to, at its sole discretion, waive any minor non-conformity or any minor deficiency in an offer. The Bank reserves the right for such waivers and the Bank's decision in the matter will be final.

Bidders scoring at-least overall score of 70% marks or more, as per Technical Bid Format in Annexure E ,will be declared technically qualified.

Bank may seek clarifications from the any or each bidder as a part of technical evaluation. All clarifications received within stipulated time shall be considered for evaluation. In case a clarification is not received within the stipulated time, the respective technical parameter would be treated as non-compliant and decision to qualify the bidder shall be accordingly taken by the Bank. Those Bidders who meet the threshold score of **70%** or more will be considered as “Qualified under Stage B” and will be considered for evaluation under Stage C. Those who do not meet the above threshold will not be considered for further evaluation and their EMD will be returned. However, Bank reserves the right to relax the criteria.

The bidders will submit the Technical Bid in the format as per Annexure E. A copy of board resolution or power of attorney showing that the signatory has been duly authorized to sign the tender document.

Stage C-Evaluation of Commercial Bid

Cost Evaluation under Combined Quality cum Cost Based System (CQCCBS)

- i. Under CQCCBS, the technical proposals will be allotted weightage of 70% while the financial proposals will be allotted weightages of 30%.
- ii. Proposal with the lowest cost may be given a financial score of 100 and other proposals given financial scores that are inversely proportional to their prices.
- iii. Similarly Proposal with the Highest Technical Score may be given a technical score of 100 and other proposals given technical scores that are proportional to their scores.
- iv. The total score, both technical and financial, shall be obtained by weighing the quality and cost scores and adding them up. The proposed weightages for quality and cost shall be specified in the RFP.

Final Combined Score Formula:

$$\text{Final Score} = [\text{Weighted Technical Score} \times 70] + [\text{Commercial Score} \times 30]$$

$$\text{Weighted Technical Score} = \frac{\text{Bidder's Technical Score}}{\text{Highest Technical Score}}$$

$$\text{Commercial Score} = \frac{\text{Lowest Commercial Price}}{\text{Bidder's Commercial Price}}$$

Highest point's basis:

On the basis of the combined weighted score for quality and cost, the bidder shall be ranked in terms of the total score obtained. The proposal obtaining the highest total combined score in evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 will be invited for negotiations, if required and shall be recommended for award of contract.

As an example, the following procedure can be followed. In a particular case of selection of bidder, it was decided to have minimum qualifying marks for technical qualifications as 70 and the weightage of the technical bids and financial bids was kept as 70 : 30. In response to the RFP, 3 proposals, A, B & C were received. The technical evaluation committee awarded them 75, 80 and 90 marks respectively. The minimum qualifying marks were 70. All the 3 proposals were, therefore, found technically suitable and their financial proposals were opened after notifying the date and time of bid opening to the successful participants.

The evaluation committee examined the proposals and evaluated shall take place as under:

| Proposal | Technical Score | Highest Technical Score | Commerci als Quoted | Lowest Confirmed Commercial | Final Combined Score | Final Rank |
|----------|-----------------|-------------------------|---------------------|-----------------------------|---|------------|
| A | 80 | 90 | Rs.100. | Rs.100 | $[(80/90) \times 70] + [(100/100) \times 30] = 92.22$ | H2 |
| B | 75 | 90 | Rs.110 | Rs.100 | $[(75/90) \times 70] + [(100/110) \times 30] = 85.6$ | H3 |
| C | 90 | 90 | Rs.120. | Rs.100 | $[(90/90) \times 70] + [(100/120) \times 30] = 95.00$ | H1 |

Proposal C at the evaluated cost of Rs.120 was, therefore, declared as winner and recommended for negotiations/approval, to the competent authority.

Under CQCCBS method, the bidder who has secured first rank in technical evaluation shall be called for further negotiation after opening and evaluation of its financial proposals.

NOW THEREFORE THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. Purpose J&K Bank/Disclosing Party has engaged or wishes to engage the Company/Receiving party for undertaking the project of **End-to-End Digital Collections & Recovery Platform** and each party may disclose or may come to know during the course of the project certain confidential technical and business information which the disclosing party desires the receiving party to treat as confidential.

2. Confidential Information means any information disclosed or acquired by other party during the course of the projects, either directly or indirectly, in writing, orally or by inspection of tangible objects (including without limitation documents, prototypes, samples, technical data, trade secrets, know-how, research, product plans, services, customers, markets, software, inventions, processes, designs, drawings, marketing plans, financial condition and the Company’s plant and equipment), which is designated as “Confidential,” “Proprietary” or some similar designation. Information communicated orally shall be considered Confidential Information if such information is confirmed in writing as being Confidential Information within a reasonable time after the initial disclosure. Confidential Information may also include information disclosed to a disclosing party by third parties. Confidential Information shall not, however, include any information which

- i. was publicly known and made generally available in the public domain prior to the time of disclosure by the disclosing party;
- ii. becomes publicly known and made generally available after disclosure by the disclosing party to the receiving party through no action or inaction of the receiving party;
- iii. is already in the possession of the receiving party at the time of disclosure by the disclosing part as shown by the receiving party's files and records immediately prior to the time of disclosure;
- iv. is obtained by the receiving party from a third party without a breach of such third party's obligations of confidentiality;
- v. is independently developed by the receiving party without use of or reference to the disclosing party's Confidential Information, as shown by documents and other competent evidence in the receiving party's possession; or
- vi. Is required by law to be disclosed by the receiving party, provided that the receiving party gives the disclosing party prompt written notice of such requirement prior to such disclosure and assistance in obtaining an order protecting the information from public disclosure.

3. Non-use and Non-disclosure. Each party agrees not to use any Confidential Information of the other party for any purpose except to evaluate and engage in discussions concerning a potential business relationship between the parties. Each party agrees not to disclose any Confidential Information of the other party to third parties or to such party's employees, except to those employees of the receiving party who are required to have the information in order to evaluate or engage in discussions concerning the contemplated business relationship. Neither party shall reverse engineer, disassemble, or decompile any prototypes, software or other tangible objects which embody the other party's Confidential Information and which are provided to the party hereunder.

4. Maintenance of Confidentiality. Each party agrees that it shall take reasonable measures to protect the secrecy of and avoid disclosure and unauthorized use of the Confidential Information of the other party. Each party shall take at least those measures that it takes to protect its own most highly confidential information and shall ensure that its employees who have access to Confidential Information of the other party have signed a non-use and non-disclosures agreement in content similar to the provisions hereof, prior to any disclosure of Confidential Information to such employees. Neither party shall make any copies of the Confidential Information of the other party unless the same are previously approved in writing by the other party. Each party shall reproduce the other party's proprietary rights notices on any such approved copies, in the same manner in which such notices were set forth in or on the original. Each party shall immediately notify the other party in the event of any unauthorized use or disclosure of the Confidential Information.

5. No Obligation. Nothing herein shall obligate either party to proceed with any transaction between them and each party reserves the right, in its sole discretion, to terminate the discussions

contemplated by this Agreement concerning the business opportunity. This Agreement does not constitute a joint venture or other such business agreement.

6. No Warranty. All Confidential Information is provided by Bank as “AS IS.” Bank/Disclosing Party makes no warranties, expressed, implied or otherwise, regarding its accuracy, completeness or performance.

7. Return of Materials. All documents and other tangible objects containing or representing Confidential Information which have been disclosed by either party to the other party, and all copies thereof which are in the possession of the other party, shall be and remain the property of the disclosing party and shall be promptly returned to the disclosing party upon the disclosing party’s written request.

Receiving Party shall immediately return and redeliver to Disclosing Party/ Bank all tangible material embodying the Confidential Information provided hereunder and all notes, summaries, memoranda, , records, excerpts or derivative information deriving there from and all other documents or materials (“Notes”) (and all copies of any of the foregoing, including “copies” that have been converted to computerized media in the form of image, data or word processing files either manually or by image capture) based on or including any Confidential Information, in whatever form of storage or retrieval, upon the earlier of (i) the completion or termination of the dealings between the parties contemplated hereunder; (ii) the termination of the Master Agreement; or (iii) at such time as the Disclosing Party/ Bank may so request.

The receiving party shall destroy /dispose off the confidential information provided by the disclosing party together with its copies upon written request of the disclosing party, as per the directions issued by the disclosing party and such destruction shall be confirmed in writing by receiving party.

8. No License. Nothing in this Agreement is intended to grant any rights to either party under any patent, mask work right or copyright of the other party, nor shall this Agreement grant any party any rights in or to the Confidential Information of the other party except as expressly set forth herein.

9. Term. The Obligations of each receiving party hereunder shall survive even after this agreement except as provided herein above.

10. Adherence. The content of the agreement is subject to adherence audit by J&K Bank. It shall be the responsibility of the Company/Receiving party to fully cooperate and make available the requisite resources/evidences as mandated by J&K Bank Supplier Security policy.

11. Remedies. Each party agrees that any violation or threatened violation of this Agreement may cause irreparable injury to the other party, entitling the other party to seek injunctive relief in addition to all legal remedies.

12. Arbitration, Governing Law & Jurisdiction. In the case of any dispute arising upon or in relation to or in connection with this Agreement between parties, the disputes shall at the first instance be resolved through negotiations. If the dispute cannot be settled amicably within fourteen (14) days

from the date on which either Party has served written notice on the other of the dispute then any party can submit the dispute for arbitration under Arbitration and conciliation Act,1996 through sole arbitrator to be appointed mutually by the parties.

The place of Arbitration shall be Srinagar, India and the language of the arbitration proceedings and that of all the documents and communications between the parties shall be English.

The decision of the arbitrator shall be final and binding upon the parties. The expenses of the arbitrator as determined by the arbitrator shall be borne equally.

The parties shall continue to be performing their respective obligations under this Agreement, despite the continuance of the arbitration proceedings, except for the disputed part under arbitration. This agreement shall, in all respects, be governed by, and construed in accordance with the Laws of the UT of J&K read with applicable Laws of India. The Courts in Srinagar India shall have exclusive jurisdiction in relation to this agreement.

All notices or other communication under or in connection with this agreement shall be given in writing and may be sent by personal delivery, or post or courier or facsimile or email. Any such notice or other communication will be deemed to be effective if sent by personal delivery, when delivered, if sent by post, five days after being deposited in the post office and if sent by courier, three days after being deposited with the courier, if sent by facsimile, when sent (on receipt of a confirmation of having been sent to correct facsimile number) and if sent by mail (on receipt of confirmation).

Contract Uptime & Penalties

During Period of contract, Service Provider will maintain the services as per SLAs.

- i. Any bugs and enhancement in services shall be rectified immediately.
- ii. Any requirements amendments/modifications required by bank will have to be carried out by the identified Service Provider during the contract without any additional cost.
- iii. The maximum response time for a support/complaint from the site shall not exceed time defined, else it will fall under penalty clause.
- iv. Service Provider shall solve the software problem immediately after reporting of the problem by the Bank to the Service Provider.
- v. Any rectification required in the Application Software due to inherent bugs in the System Software/ off-the-shelf software shall also be rectified by the Service Provider, at no additional cost with timelines as defined in the SLA.

The Service Provider shall guarantee an uptime of 99.50 % during the contract period which shall be calculated on Quarterly basis. The "**Uptime**", for calculation purposes, equals to the Total number of hours of the day in a quarter, less Downtime in number of hours. Any part of hour is treated as full hour.

- i. The "**Downtime**" is the time shall mean the time period when the Service/Application is not

available as per the service standards of this SLA resulting failure. **"Failure"** is the condition that renders the solution not available to customers. **"Restoration"** is the condition when the Company demonstrates that the solution is in working order and the Bank acknowledges the same.

- ii. The percentage uptime is calculated on quarterly basis as follows:

$$\frac{\text{(Total hours in a quarter - downtime hours within the quarter)}}{\text{Total hours in a quarter}} * 100$$

- iii. (A month is taken as a calendar month and number of days are actually number of days in each month)

"Uptime": The Company shall guarantee and ensure the following SLA's are met during the Contract Period of the Hardware/Software/License/Services:

| | |
|-------------------|--------|
| Service Window | 24*7 |
| Uptime Commitment | 99.50% |
| Data Availability | 100% |

- a) The **"Uptime"**, for calculation purposes, equals to the Total number of hours of the day in a quarter, less Downtime in number of hours.

The percentage uptime is calculated on Quarterly basis as follows:

$$\frac{\text{(Total hours in a quarter - downtime hours within the quarter)}}{\text{Total hours in a quarter}} * 100$$

(A quarter is taken as a calendar quarter and number of days are actually number of days in each quarter)

- b) The **"Downtime"** is the time shall mean the time period when the Service/Application is not available as per the service standards of this SLA resulting failure. **"Failure"** is the condition that renders the solution not available to customers. **"Restoration"** is the condition when the Company demonstrates that the solution is in working order and the Bank acknowledges the same.

- c) **"Percentage down time"** shall mean the aggregate of downtime of the particular system during the quarter expressed as a percentage of total available time in a year i.e. 90 * 24 hours. Thus, if the aggregate downtime of System works out to 2 hours during a year then the percentage downtime shall be calculated as follows:

$$\frac{2 \times 100}{\text{-----}} = 0.09\% \text{ (Considering days in a quarter as 90)}$$

(A month is taken as a calendar month and number of days are actually number of days in each month)

- d) **“Response Time”** shall mean the interval from receipt of first information from Bank to the company, or to the local contact person of the Company by way of any means of communication informing them of the malfunction in System/Solution to the time Company Engineer attends the problem.
- e) **“Restoration Time”** shall mean the period of time from the problem occurrence to the time in which the service returns to operational status. This may include temporary problem circumvention / workaround and does not necessarily include root cause removal.
- f) **“Resolution Time”** shall mean the period of time from the problem occurrence to the time in which the root cause of the problem is removed and a permanent fix has been applied to avoid problem reoccurrence.
- g) **Down Time”** shall mean the time period when the Service/Application is not available as per the service standards of this SLA, and the service/application is not available to the users of the Bank /Customers of the Bank (and excludes the scheduled outages planned in advance IT infrastructure),due to the problem in it and downtime is the sum of response time and restoration time with the following exclusions:

Period when Bank denies access to the Company Engineer for carrying out repair activities.

During Period of contract, Service Provider will maintain the services as per SLAs. If the bidder fails to maintain guaranteed/committed uptime of 99.50% on quarterly basis. Bank shall impose penalty as mentioned below on slab basis. In case the uptime falls below the levels as tabulated below, Bank shall impose a penalty for each percent of loss of uptime below the guaranteed level as per details below:

| Uptime | Penalty /Quarter |
|----------------|---|
| 99.50% & Above | NA |
| 99.49% to 99% | 3% of the Total Subscription Charges/Quarter |
| 98.99% to 98% | 5% of the Total Subscription Charges/Quarter |
| 97.99% to 97% | 8% of the Total Subscription Charges/Quarter |
| 96.99% to 95% | 10% of the Total Subscription Charges/Quarter |
| Less than 95% | Penalty at an incremental rate of 1% (in addition to a base of 10%) of the Total Subscription Charges/Quarter for every 0.5% lower than the stipulated uptime |

Bank may recover such amount of penalty from any payment being released to the bidder, irrespective of the fact whether such payment is relating to this contract or otherwise. In case there is no pending invoices to be paid by the Bank to the bidder, the bidder has to submit a pay order / cheque payable at Srinagar in favour of Jammu & Kashmir Bank for the same within 15 days from the notice period from the Bank, failure of same may result in invoking of PBG for recovery of penalty. If the downtime exceeds 10 % and instances of downtime are more than 10

in a year, Bank has the discretion to cancel the contract.

If any penalty is levied by any regulator on the Bank which is attributed to the solution or any of its components, then the entire amount of such loss shall be recovered from the bidder on actual basis.

Note: SLA will be monitored on Quarterly basis.

Service Levels:

This SLA document provides for minimum level of services required as per contractual obligations based on performance indicators and measurements thereof. The Company shall ensure provisioning of all required services while monitoring the performance of the same to effectively comply with the performance levels. The services provided by the Company shall be reviewed by Bank that shall:

- Regularly check performance of the Company against this SLA.
- Discuss escalated problems, new issues and matters still outstanding for resolution.
- Review of statistics related to rectification of outstanding faults and agreed changes.
- Obtain suggestions for changes to improve the service levels.

Non-Availability: Is defined as, the service(s) is not-available as per levels below.

- Severity Level 1:** Is defined as, the Service is not available or there is a major degradation in performance of the system.
- Severity Level 2:** Is defined as, the service is available but the performance is degraded or there are intermittent failures and there is an urgent need to fix the problem to restore the service
- Severity Level 3:** Is defined as, the moderate degradation in the application performance. Has no impact on the normal operations/day-to-day working.

The violation of any of the above SLA's will attract a penalty as set out in the table below:

| Severity Level | Response | Restoration | Resolution |
|----------------|----------|-------------|------------|
| Severity-1 | 15 mins. | 2 hrs. | 1 day |
| Severity-2 | 15 mins. | 3 hrs. | 2 days |
| Severity-3 | 30 mins. | 6 hrs. | 3 days |

Penalties for Non-Compliance to Restoration and Resolution Time:

| Severity Level | Restoration Breach | Resolution Breach |
|----------------|---|---|
| Severity-1 | 0.10% of Subscription Fee/Month for every 2 hrs. of delay in restoration | 0.10% of Subscription Fee/Month for every 3 day of delay in resolution |
| Severity-2 | 0.10% of Subscription Fee/Month for every 3hrs. of delay in restoration | 0.10% of Subscription Fee/Month for every 7 day of delay in resolution |
| Severity-3 | 0.10 % of Subscription Fee/Month for every 6 hrs. of delay in restoration | 0.10% of Subscription Fee/Month for every 10 day of delay in resolution |

Penalty for delayed Delivery:

Without prejudice to the rights of Bank to terminate this agreement/ the related purchase order, in case of the failure to deliver the solution/milestones within the stipulated timelines, penalty shall be levied for every 1 week delay beyond due date at the rate of 1% of the order value of delayed item/milestone (inclusive of all taxes, duties, levies etc), up to a maximum of 10 weeks from the original delivery date .If delay exceeds 10 weeks, bank may in its sole discretion and without being bound to do so, extend the date of delivery or can invoke PBG and cancel the entire contract. In the event of the Bank agrees to extend the date of delivery at the request of the Company, it is a condition precedent that the validity of the Performance Bank Guarantee submitted by the Company in regard to the supply and maintenance etc. of the solution shall be extended by further period as required by the Bank before the expiry of the original Bank Guarantee. Failure to do so will be treated as breach of contract. Service Provider shall be excused of delay in case the installation could not be completed due to reasons not attributable to bidder, which shall be determined by Bank. Decision of Bank in this regard shall be final and binding.

No penalty shall be levied to the Company for delay in delivery due to reasons attributable to the Bank.

Delivery & Installation:

EXTENSION OF DELIVERY SCHEDULE:

If, at any time during performance of the Contract, the Bidder should encounter conditions impeding timely delivery, the Bidder shall promptly notify the Bank in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the Bidder's notice, the Bank shall evaluate the situation and may at its discretion may extend the Bidder's time for performance against suitable extension of the performance guarantee for delivery.

NON-DELIVERY:

Failure of the successful bidder to comply with the above delivery schedule, shall constitute sufficient grounds for the annulment of the award of contract and invocation of bank guarantee

(delivery) besides taking appropriate action against the successful bidder including blacklisting such bidder from participating in future tenders.

3. USER ACCEPTANCE TESTING:

Successful bidder shall assist Bank in the User Acceptance Testing of the solution for the functionalities stated in this RFP document. Bank shall issue a UAT signoff on successful completion of the UAT for all channels. If the UAT fails or there is undue delay of the completion of the UAT due to reasons attributable to the successful bidder, Bank may at its own discretion cancel the purchase order and invoke the Bank guarantee for implementation.

4. OPERATIONALIZATION OF SOLUTION:

Bank shall issue Go Live Signoff on successful operationalization of the solution. If there is delay in the operationalization of the solution, Bank reserves the right to cancel the purchase order and invoke the Bank guarantee submitted for implementation.

5. REVIEW:

The solution shall remain under review for a period of 3 months from the date of issuance of Go Live Certificate as stated above. The Successful bidder shall be readily available during the review phase for troubleshooting and other support. During the review phase, Bank may request changes to the application as per its requirement and no extra costs shall accrue to the bank for the effort involved in the same. Bank shall issue final acceptance signoff at the end of the review phase.

Contract Period

The Contract shall be effective from date of acceptance of PO and shall be valid till (___date___), i.e 5 years from go live of the solution (___date___), unless or until terminated by Bank in accordance with the terms of this SLA. 4. The bidder shall ensure that a strong Project Governance Framework is put in place for adequately addressing associated risks and measuring the success of the project at any given point of time. The same needs to be communicated as part of the RFP response along with the escalation matrix.
5. In case the bidder opts for providing the services via a Multi-tenancy environment, it must be protected against data integrity and confidentiality risks and against co-mingling of data. The architecture should enable smooth recovery and any failure of any one or combination of components across the managed services architecture should not result in data/ information security compromise.
6. The Bidder shall share the appropriate update and release cycles affecting the service features (Such as: Security, Continuity, legal and governance...etc.). The bidder must be flexible to align the same with the Banks Patch, Vulnerability and Change Management Processes.
7. The Bidder, as part of bid submission shall share the detailed information on how the Service Provider ensures and applies agile and rapid yet comprehensive risk management. This must include the Risk Control checking Methodology.
8. In case the Service Provider is proposing the solution on Virtualized mode, the Service Provider has to ensure that the controls are in place to guarantee that only authorized snapshots are taken, and that these snapshots level of classification and storage location and encryption is compatible in strength with the production virtualization environment.

Besides, the Service Provider has to ensure that the complete logs of Virtualized environment that are provided to Bank are accessible to Bank.

9. The bidder shall provide the Bank with its Service Providers user list that will have access to the Bank's data; at any point throughout the duration of the agreement. Service Providers should also update the Bank with any change in the employee list.
10. The bidder shall ensure to submit the high-level/low level design document as part of the solution offering mentioning integration of the application with Banks Privileged Identity and Access Management Solution. The Bank shall be open to provide Identity Federated integration using SAML / OpenID /Open Auth, RADIUS etc.
11. The Admin & User Management Framework provided by the Service Provider must be in alignment with RBI's Authentication Framework for Customers, Privileged Accesses and other Internal Users.
12. The Service Provider must provide the Bank secure control for managing its identities (Including Identity Creation and Deletion / Modification & Termination).
13. The Service Provider shall ensure Authentication, Authorization, Accounting, Access control and logging (Format, retention and Access) meet the Bank's regulatory and legal requirements.
14. The Service Provider shall ensure that the logging is enabled for all activities including OS and, Application level for a period not less than 180 days online and then Backed up for the period of project. The Live logs as stipulated above shall as well be integrated with Bank's SIEM Solution.
15. The Service Provider shall have the information readily available on Location and time of access of the Service Provider Team.
16. The Service Provider shall ensure Micro-segmentation of Banks services. The Service Provider shall further shall ensure to put in place, in addition to the Infrastructure Security, the Application Layer Firewalls, conduct source code reviews prior to provisioning any application release, Adopt Secure web development best practices like OWASP secure development guidelines, Adopt OS and Applications security hardening best practices. Service Provider shall submit the source code audits reports mentioning closure of all identified vulnerabilities at yearly frequency to the Bank.
17. Service Provider shall ensure to conduct Periodic Vulnerability Assessment & Penetration testing of its Infrastructure and applications. The MPS shall ensure that these activities are done as part of Vulnerability Management and remediation program is defined, and it includes fixing the vulnerabilities based on priority. All vulnerabilities should be prioritized

and must be fixed and patched within SLAs agreed upon by the Bank and the CSP in line with Banks Patch & Vulnerability Management procedure.

18. Service Provider shall ensure to follow a proper software development life cycle (SDLC) and that security is an integrated part in at least the following phases:
 - a. Planning and requirements gathering
 - b. Architecture and functional Design Phase Coding
 - c. Testing
 - d. Maintenance
19. The bidder shall ensure to adopt and is in compliance with Change Management and Incident Response Procedures as specified in (ITIL).
20. The Service Provider shall share its DR plan with Bank so as to ensure it matches the Bank's BCP requirements.
21. The Service Provider has the ability to retrieve and restore data following data loss incidents.
22. Service Provider to provide the Bank at least bi-annually with the DR testing reports. The reports should be comprehensive, covering from the exercise scope till the final outcome and recommendations.
23. Service Provider to ensure the DR solution is capable of maintaining the same levels of security measures and controls utilized in the normal operation mode.
24. Ensure that the DR solution is also owned and managed entirely by the Contracted Service Provider. Conducting DR Drills & DR compliances shall be the responsibility of Contracted Service Provider.
25. The Bidder shall ensure to meet the Maximum Time to Recover (MTTR) also known as RTO (Recovery Time Objective) of 3 Hours and Recovery Point Objective of Zero (0).
26. The Service Provider shall submit the data-segmentation and separation controls at each of the four main layers at the Service Provider: (1) Network, (2) physical, (3) system and (4) Application. The same must be kept updated and produced to the Bank as and when there are any changes or as sought by the Bank.
27. The bidder must be open for evaluation of each of the Data segmentation controls at each layer, as well as the number and type of controls at each layer every 6 months and after major system changes and upgrades.
28. The Service Provider shall ensure that data is encrypted at storage and in transit and in full compliance (at any given point in time) with Bank's Cryptographic Procedure, ISO

27001 and PCI-DSS Standard. The Databases must support the function of Encryption, Redaction/Masking and Comprehensive Audit Logging.

29. The Service Provider shall ensure that it is using a unique set of encryption key(s) for Bank. The unique encryption keys shall help protect data from being accessible in the event that it is inadvertently leaked from one Service Provider customer to another.
30. The Service Provider shall ensure to provide the “Exclusive” right to data ownership to the Bank throughout the duration of the agreement. The ownership includes all copies of data available with the Service Provider including backup media copies if any. The Service Provider is not permitted to use Bank’s data for advertising or any other non-authorized secondary purpose.
31. The Service Provider shall contractually ensure that they inform the Bank “immediately” on any confirmed breach without any undue delay. The Service Provider shall ensure that Bank is notified within 4 hours of any “Suspected” breach from the time of breach discovery.
32. An “Exit Management Plan” must be put in place to define the rules of disengagement. Service Provider should provide the detailed description of the exit clause including agreed process, TAT for exit, data completeness and portability, secure purge of Bank’s information, smooth transition of services, complete plan of how data shall be moved out from the hosted infrastructure with minimal impact on continuity of the Bank’s operations.
33. It shall be responsibility of the service provider to ensure smooth transition of all the data of the Banks data including audit trails, logs, to Bank specified location/storage on the conclusion of services. It would be obligatory for the Service Provider not to delete any data without the written permission from the Bank.
34. Service Provider shall ensure to comply with the data and media destruction and sanitization controls as stipulated in Media Disposal and Sanitization Policies of Bank. The Service Provider shall further preserve documents as required by law and take suitable steps to ensure that Banks interests are protected, even post termination of the services. This would include ensuring full integrity data transition from service provider to alternate service provider or on premise setups.
35. The bidder shall ensure that the services are duly audited and certified by Cert-In Empaneled Audit Companies. The bidders are required to comply with requisite audit requirements as is specified under the security standards followed under the Information Technology Act and as stipulated by the Regulators from time to time.
36. Bank shall ensure that the Service Provider shall neither impede/ interfere with the ability of the Bank to effectively oversee and manage its activities nor impede the supervising authority in carrying out the supervisory functions and objectives.

37. The Service Provider shall ensure that the arrangement shall comply with all the policies of the Bank including, but not limit to, Information Security Policy, BCP, IT Outsourcing Policy, Incident Management Policy, etc. The service provider has to comply with all the laws/ regulations issued by RBI from time to time.
38. The Service Provider shall grant unrestricted and effective access to data related to the outsourced activities.
39. The relevant business premises of the Service Provider; subject to appropriate security protocols, for the purpose of effective oversight use by the Bank, their auditors, regulators and other relevant Competent Authorities, as authorized under law.
40. In case the technology/software platform/ hardware / infrastructure offered under the solution on hosted model reaches end of life / support during the contract period, the bidder has to ensure that the systems are either replaced or upgraded at their/bidders own cost without any disruption in the ongoing business transactions of the Bank.
41. Bidder shall not propose any solution/components which is near to end of life or end of support during the tenure of the contract.
42. The company shall comply to the Master Directions of RBI on IT outsourcing and bank's policy on IT Outsourcing with specifically on following points:
 - i. *The service provide shall ensure that the Bank has an effective access to all data, books, records, information, logs, alerts and business premises relevant to the outsourced activity of the Bank, available with the service provider;*
 - ii. *The service provider shall facilitate regular monitoring and assessment of the service provider by the Bank for continuous management of the risks holistically, so that any necessary corrective measure can be taken immediately;*
 - iii. *The service provider shall inform the Bank about the material adverse events (e.g., data breaches, denial of service, service unavailability, etc.) and the incidents required to be reported to Bank to enable Bank to take prompt risk mitigation measures and ensure compliance with statutory and regulatory guidelines;*
 - iv. *The service provider shall ensure that the services being offered are in compliance with the provisions of Information Technology Act, 2000, other applicable legal requirements and standards to protect the customer data;*
 - v. *The service provider shall ensure that storage of data (as applicable) is only in India as per extant regulatory requirements;*
 - vi. *The service provider shall provide bank with details of data (related to Bank and its customers) captured, processed and stored;*

- vii. *The service provider shall not share any types of data/ information that the service provider (vendor) is not permitted to share with Bank's customer and / or any other party;*
- viii. *The Service provider shall have in place effective contingency plan(s) to ensure business continuity and testing requirements, in line with the Banks BCP;*
- ix. *Bank shall have right to seek information from the service provider about the third parties (in the supply chain) engaged by the former;*
- x. *The service provider shall be contractually liable for the performance and risk management practices of its sub-contractors;*
- xi. *It shall be obligation of the service provider to comply with directions issued by the RBI in relation to the activities outsourced to the service provider, through specific contractual terms and conditions specified by the Bank;*
- xii. *It shall be obligation of the service provider to co-operate with the relevant authorities in case of insolvency/ resolution of the Bank;*
- xiii. *There shall be a provision to consider skilled resources of service provider who provide core services as "essential personnel" so that a limited number of staff with back-up arrangements necessary to operate critical functions can work on-site during exigencies (including pandemic situations);*
- xiv. *The service provider should have a suitable back-to-back arrangements with the concerned OEM, if applicable*

|--|---|-------|---|-----------|--|--|
| | Managem ent Support / Involvem ent | IS.02 | *Are policies in place to ensure executive and line management take formal action to support information security through clear documented direction, commitment, explicit assignment and verification of assignment execution? | Mandatory | | |
| | Policy | IS.03 | Do your information security and privacy policies align with particular standards (ISO-27001, NIA, CoBIT, etc.)? | | | |
| | | IS.04 | Do you have agreements which ensure your providers adhere to your information security and privacy policies? | | | |
| | | IS.05 | *Can you provide evidence of due diligence mapping of your controls, architecture and processes to regulations and/or standards? | Mandatory | | |
| | Baseline Requirem ents | IS.06 | *Do you have documented information security baselines for every component of your infrastructure (ex. Hypervisors, operating systems, routers, DNS servers, etc.)? | Mandatory | | |
| | | IS.07 | Do you have a capability to continuously monitor and report the compliance of your infrastructure against your information security baselines? | | | |
| | | IS.08 | *Do you allow your clients to provide their own trusted virtual machine image to ensure conformance to their own internal standards? | Mandatory | | |

| | | | | | | |
|-----------------------------|---|-------|--|-----------|--|--|
| | Policy Reviews | IS.09 | Do you notify your customers when you make material changes to your information security and/or privacy policies? | | | |
| INFORMATION SECURITY | | IS.10 | *Is a formal disciplinary or sanction policy established for employees who have violated security policies and procedures? | Mandatory | | |
| | | IS.11 | *Are employees made aware of what action might be taken in the event of a violation and stated as such in the policies and procedures? | Mandatory | | |
| | User Access Policy | IS.12 | *Do you have controls in place ensuring timely removal of access rights and permissions which is no longer required? | Mandatory | | |
| | | IS.13 | *Do you provide metrics which track the speed with which you are able to remove access rights following a request from us? | Mandatory | | |
| | User Access Restriction / Authorization | IS.14 | *Do you document how you grant and approve access to customer data? | Mandatory | | |
| | | IS.15 | Do you have a method of aligning provider and customer data classification methodologies for access control purposes? | | | |
| | User Access | IS.16 | *Is timely de-provisioning, revocation or modification of user access to the organizations systems, information assets and | Mandatory | | |

| | e / Benchmarking | | associations related to information security? | | | |
| | | IS.23 | *Do you benchmark your security controls against industry standards? | Mandatory | | |
| | Roles / Responsibilities | IS.24 | Do you provide customers with a role definition document clarifying your administrative responsibilities vs. those of the customer? | | | |
| | Management Oversight | IS.25 | Are Managers responsible for maintaining awareness of and complying with security policies, procedures and standards that are relevant to their area of responsibility? | | | |
| INFORMATION SECURITY | Segregation of Duties | IS.26 | Do you provide customers with documentation on how you maintain segregation of duties within your service offering? | | | |
| | User Responsibility | IS.27 | *Is your staff made aware of their responsibilities for maintaining awareness and compliance with our published security policies, procedures, standards and applicable regulatory requirements? | Mandatory | | |
| | | IS.28 | Are users made aware of their responsibilities for maintaining a safe and secure working environment? | | | |
| | | IS.29 | Are users made aware of their responsibilities for leaving unattended equipment in a secure manner? | | | |

| | | | | | | |
|--|--------------------------------------|---|--|-----------|--|--|
| | Workspac e | IS.30 | *Do your data management policies and procedures address customer and service level security requirements? | Mandatory | | |
| | | IS.31 | Do your data management policies and procedures include a tamper audit or software integrity function for unauthorized access to customer data? | | | |
| | | IS.32 | *Does the virtual machine management infrastructure include a tamper audit or software integrity function to detect changes to the build/configuration of the virtual machine? | Mandatory | | |
| | Encryptio n | IS.33 | *Do you have a capability to allow creation of unique encryption keys per customer? | Mandatory | | |
| | | IS.34 | Do you support customer generated encryption keys or permit customers to encrypt data to an identity without access to a public key certificate. (e.g. Identity based encryption)? | | | |
| | Encryptio n Key Managem ent | IS.35 | *Do you encrypt customer data at rest (on disk/storage) within your environment? | Mandatory | | |
| | IS.36 | *Do you leverage encryption to protect data and virtual machine images during transport across and between networks and hypervisor instances? | Mandatory | | | |

| | | | | | | |
|----------------------|--------------------------------|-------|---|-----------|--|--|
| | | IS.37 | Do you have a capability to manage encryption keys on behalf of customers? | | | |
| | | IS.38 | Do you maintain key management procedures? | | | |
| | Vulnerability/Patch Management | IS.39 | *Do you conduct network-layer vulnerability scans regularly? | Mandatory | | |
| | | IS.40 | *Do you conduct application-layer vulnerability scans regularly? | Mandatory | | |
| | | IS.41 | *Do you conduct local operating system-layer vulnerability scans regularly? | Mandatory | | |
| | | IS.42 | *Do you have a capability to rapidly patch vulnerabilities across all of your computing devices, applications, and systems? | Mandatory | | |
| INFORMATION SECURITY | | IS.43 | Will you provide your risk-based systems patching timeframes to your customers upon request? | | | |
| | Antivirus / Malicious Software | IS.44 | Do you deploy multi anti-malware engines in your infrastructure? | | | |
| | | IS.45 | Do you ensure that security threat detection systems which use signatures, lists, or behavioural patterns are updated across all infrastructure components within industry accepted timeframes? | | | |

| | | | | | | |
|-------|-------------------------------------|---|--|-----------|--|--|
| | Incident Management | IS.46 | *Do you have a documented security incident response plan? | Mandatory | | |
| | | IS.47 | Do you integrate customized customer requirements into your security incident response plans? | | | |
| | | IS.48 | Do you have a CERT function (Computer Emergency Response Team)? | | | |
| | | IS.49 | Do you publish a roles and responsibilities document specifying what you vs. your customers are responsible for during security incidents? | | | |
| | Incident Reporting | IS.50 | Does your security information and event management (SIEM) system merge data sources (app logs, firewall logs, IDS logs, physical access logs, etc.) for granular analysis and alerting? | | | |
| | | IS.51 | Does your logging and monitoring framework allow isolation of an incident to specific customers? | | | |
| | Incident Response Legal Preparation | IS.52 | *Does your incident response plan comply with industry standards for legally admissible chain-of-custody management processes & controls? | Mandatory | | |
| IS.53 | | *Does your incident response capability include the use of legally admissible forensic data collection and analysis techniques? | Mandatory | | | |

| | | | | | | |
|-----------------------------|---------------------------|-------|--|-----------|--|--|
| | | IS.54 | *Are you capable of supporting litigation holds (freeze of data from a specific point in time) for a specific customer without freezing other customer data? | Mandatory | | |
| | | IS.55 | Do you enforce and attest to customer data separation when producing data in response to legal subpoenas? | | | |
| | Incident Response Metrics | IS.56 | Do you monitor and quantify the types, volumes, and impacts on all information security incidents? | | | |
| | | IS.57 | Will you share statistical information security incident data with your customers upon request? | | | |
| | Acceptable Use | IS.58 | Do you provide documentation regarding how you may utilize or access customer data and/or metadata? | | | |
| | | IS.59 | Do you collect or create metadata about customer data usage through the use of inspection technologies (search engines, etc.)? | | | |
| | | IS.60 | Do you allow customers to opt-out of having their data/metadata accessed via inspection technologies? | | | |
| INFORMATION SECURITY | Asset Returns | IS.61 | *Are systems in place to monitor for privacy breaches and notify customers | Mandatory | | |

| | | | | | | |

| | | | expeditiously if a privacy event may have impacted their data? | | | |
| | IS.62 | | *Is your Privacy Policy aligned with industry standards and Indian Law | Mandatory | | |
| e-Commerc e Transacti ons | IS.63 | | Do you provide standard encryption methodologies (3DES, AES, etc.) to customers in order for them to protect their data if it is required to traverse public networks? (ex. the Internet) | | | |
| | IS.64 | | *Do you utilize standard encryption methodologies any time your infrastructure components need to communicate to each other over public networks (ex. Internet-based replication of data from one environment to another)? | Mandatory | | |
| Audit Tools Access | IS.65 | | Do you restrict, log, and monitor access to your information security management systems? (Ex. Hypervisors, firewalls, vulnerability scanners, network sniffers, APIs, etc.) | | | |
| Diagnosti c / Configura tion Ports Access | IS.66 | | *Do you ensure hardening of admin workstations and Role Based Access Control to enforce the 'least privilege' principle | Mandatory | | |
| Network / Infrastruc | IS.67 | | Do you collect capacity and utilization data for all relevant components of your service offering? | | | |

| | | | | | | |
|--|--------------------------------|-------|---|-----------|--|--|
| | ture Services | | | | | |
| | | IS.68 | Do you provide customers with capacity planning and utilization reports? | | | |
| | Portable / Mobile Devices | IS.69 | *Do you allow mobile devices in your facility for administration purposes (e.g., tablets,)? | Mandatory | | |
| | Source Code Access Restriction | IS.70 | *Are controls in place to prevent unauthorized access to your application, program or object source code, and assure it is restricted to authorized personnel only? | Mandatory | | |
| | | IS.71 | *Are controls in place to prevent unauthorized access to customer application, program or object source code, and assure it is restricted to authorized personnel only? | Mandatory | | |
| | ESV Programs Access | IS.72 | *Are utilities that can significantly manage virtualized partitions (ex. shutdown, clone, etc.) appropriately restricted and monitored? | Mandatory | | |
| | | IS.73 | Do you have a capability to detect attacks which target the virtual infrastructure directly (ex. shimming, Blue Pill, Hyper jumping, etc.)? | | | |
| | | IS.74 | *Are attacks which target the virtual infrastructure prevented with technical controls? | Mandatory | | |

| | | | | | | |
|------------------------------|------------------------------|-------|---|-----------|--|--|
| LEGAL | Non-disclosure Agreements | LG.01 | *Are requirements for non-disclosure or confidentiality agreements reflecting the organization's needs for the protection of data and operational details identified, documented and reviewed at planned intervals? | Mandatory | | |
| | Third Party Agreements | LG.02 | *Can you provide a list of current 3rd party organization that will have access to the customer's (My) data? | Mandatory | | |
| OPERATIONS MANAGEMENT | Policy | OM.01 | Are policies and procedures established and made available for all personnel to adequately support services operations roles? | | | |
| | Documentation | OM.02 | Are Information system documentation (e.g., administrator and user guides, architecture diagrams, etc.) made available to authorized personnel to ensure Configuring, installing, and operating the information system? | | | |
| | Capacity / Resource Planning | OM.03 | Do you provide documentation regarding what levels of system (network, storage, memory, I/O, etc.) oversubscription you maintain and under what circumstances/scenarios? | | | |
| | | OM.04 | *Do you restrict use of the memory oversubscription capabilities present in the hypervisor? | Mandatory | | |

| | | | | | | |
